

## **Telephone exchanges : price increase 2009**

### Recent telephone exchanges: increase in the monthly rental and technical support charges

Following the rise in consumer prices in 2008, the monthly rental and technical support charges will be increased by 4.08% as from the April 2009 bill.

This increase relates to all the telephone exchanges in the Belgacom range except the old telephone exchanges and their components: Forum I6, I6S, I12, I12S, I18S, IS 16, 24, 48, 80, 160, UKS, VS, PX 2700 and "taxation small".

### Old telephone exchanges: increase in the monthly technical support fee

Owing to a lack of spare parts for the old telephone exchanges PX2700, UKS, VKS, Forum I6, Forum I6S, Forum I12, Forum I12S, Forum I18S, Forum IS 16, Forum IS24/40 and Forum IS 48/80/160, the monthly technical support fee will be doubled as from 1 July 2009.

Given that the technical support fee is integrated in the monthly rental charge, the average impact of this increase on the monthly rental charge will be more or less 30%.
